

A close-up photograph of a woman with light skin and freckles, looking slightly to the right. She is applying a thick, light-colored cream to her right cheek with her index finger. Her hair is pulled back, and her expression is calm. The background is a plain, light color.

**Your health
and well-being
are our inspiration.**

Galex d.o.o.

We are a company with a pharmaceutical tradition that started out as a galenic laboratory and kept expanding. Prekmurje's kindness and diligence is what makes us special. We approach every project carefully, prudently and precisely, as we want our products to be made of the highest quality and from selected raw materials.

We are registered for the production and marketing of medicines and other pharmaceutical products.

We have GMP (Good Manufacturing Practice Medicines) certification, which ensures the highest production standards also in the production of cosmetics, dietary supplements and herbal teas.

Among other things, we have a marketing authorization for medicines and active ingredients (GDP), which is confirmed by the authorization and entry in the register of wholesalers of active ingredients at the JAZMP. We are registered in the index of manufacturers and wholesalers of medical devices.

Our goal is to take care of the health and improve the quality of life of the users of our products, so we maintain the highest standards at all stages of the production process. We pay special attention to quality input raw materials for our products and in the use of herbs and other natural raw materials with quality certificates according to the requirements of the European Pharmacopoeia.

Galex – recognized quality of products and services made in EU!

Product range we manufacture

With the experience and knowledge we have gained since 1991, we have become a stable and reliable partner for contract manufacturing.

Our name can be identified with quality, versatility, reliability and flexibility.

Cosmetic products, made for skin care, are the result of the years of experience of our pharmacists. Medicinal products are used in therapeutic names to prevent, treat or alleviate disease. We perform encapsulation of powdered raw materials in various types of hard capsules (gelatin or HPMC-vegan).

We have an automated manufacturing process for the production of tablets, vaginal tablets, suppositories and syrups. We also prepare natural teas.

Private label – From idea to final product

Thanks to the long tradition, we are able to manufacture a product starting with an idea all the way to final distribution, however we also provide the implementation of only a certain phase of the production process. Due to our knowledge and experience in the production of cosmetics, food supplements and herbal teas, we achieve high standards.

Baby and Kids Line Galex

The Galex Baby and Kids line includes key products for the care and well-being of children in their most delicate period. The products are the result of the knowledge and experience of Galex pharmacists.

The Galex Baby and Kids line, whose symbol is the illustrative stork Štefi, already includes 10 different products.

Čajček – tea for children

Net Quantity: 50 g

Description: Children's tea Čajček is a mixed herbal tea made just for children. Carefully selected blend of natural herbs.

Use: Pour 1 tablespoon (4 g) of herbs with 200 ml of boiling water, let stand covered for 30 minutes, then strain the tea. Give freshly brewed tea to the child up to 3 times a day, between meals.

Ingredients: chamomile flower (35%), bitter fennel fruit (15%), garden anise fruit (15%), marjoram herb (15%), peppermint leaf (10%), common lemon balm leaf (10%).

Virgin olive oil

Net Quantity: 100 ml

Description: Virgin olive oil is intended for daily use for care and protection of dry and sensitive skin. It nourishes, moisturizes and keeps the skin supple. Olive oil is a source of unsaturated fatty acids and vitamins A and E.

Use: Apply virgin olive oil to cleansed skin of the face, hands, lips, or the whole body and massage it lightly. You can also add it to the bath, which softens the skin and has a relaxing effect on the body.

Ingredients (INCI): Olea Europaea Fruit Oil

Children's ointment

Net Quantity: 200 ml, 50 ml

Description: Baby ointment is intended for the care of sensitive skin to protect and prevent skin problems, especially in the diaper area.

The ointment is suitable for daily repeated use in care because it contains ingredients that protect, soothe and help in the natural restoration of redness and damaged skin.

Use: Apply 3 to 4 times a day or as needed. With each diaper change apply a thin layer of ointment on clean and dry skin. Suitable for all skin types.

Ingredients (INCI): Lanolin, Aqua, Petrolatum, D Panthenol, Zinc Oxide, Propylene Glycol, Bisabolol, Hamamelis Virginiana (Witch Hazel) Extract, Vanilla Planifolia Fruit Extract.

Cooling ointment

Net Quantity: 100 ml

Description: Cooling ointment is an emulsion that contains water and oil. Water moisturizes and cools the skin, while olive oil softens and keeps it supple. Use cooling ointment for skin care and protection. The ointment is suitable for sensitive baby skin.

Use: Apply cooling ointment to cleansed skin several times a day.

Ingredients (INCI): Aqua, Lanolin, Petrolatum, Olea Europaea Fruit Oil.

Powder paste

Net Quantity: 20 g

Description: The powder paste has a mild antiseptic effect, dries and promotes skin regeneration. It is especially suitable for protecting sensitive baby skin. It prevents irritation and the formation of red skin and minor rashes under diapers.

Use: Apply a thin layer of paste to the cleaned selected area up to 2 times per day.

Ingredients (INCI): Petrolatum, Lanolin, Gadi lecur Oil, Zinc Oxide, Bismuth Subgallate, Ichthammol.

Almond oil

Net Quantity: 150 ml

Description: Almond massage oil, rich in vitamins A, B and E. It is intended for the care of all skin types, especially for the delicate baby skin. It is also suitable for skin care in preventing the formation of stretch marks. The skin is well-groomed and moisturized and noticeably soft and supple.

Use: Apply virgin olive oil to cleansed skin of face, hands, lips, or whole body and massage lightly. You can also add it to the bath, which softens the skin and has a relaxing effect on the body.

Ingredients (INCI): Olea Europaea Fruit Oil

Primrose syrup for children

Net Quantity: 150 ml

Description: Primrose syrup for children contains extracts of primrose, plantain and bitter fennel, which has a beneficial effect on the respiratory tract, contribute to the dilution of dense bronchial mucus and easier secretion of mucus over time irritated throat or pharynx.

Use: Children from 1 to 4 years, consume ½ up to 1 teaspoon (2.5 5 ml) syrup 2 to 3 times a day. Children over 4 years of age take 1 teaspoon (5 ml) of syrup 3 to 4 times a day.

Ingredients: 5 ml of syrup contains extracts of 250 mg of plantain leaves (*Plantaginis lanceolatae folium*), 60 mg of primrose root (*Primulae radix*) and 60 mg fruits of bitter fennel (*Foeniculiamari fructus*).

Plantain syrup

Net Quantity: 150 ml

Description: Plantain syrup contains an extract of plantain, which is beneficial affects the respiratory tract and protects the mucous membranes during an irritated throat or pharynx.

Use: Adults and children over 14 years of age consume 3 small spoons (15 ml) of syrup 3 to 5 times a day, children from 7 to 14 years of age take 2 small spoons (10 ml) of syrup 3 times a day, children up to 7 and 1 teaspoon (5 ml) of syrup 3 times a day.

Ingredients: 5 ml of syrup contains an extract of 0.3 g of plantain leaves (*Plantaginis lanceolatae folium*).

Cumin syrup

Net Quantity: 50 ml

Description: Cumin syrup relieves indigestion and bloating. It is intended use in infants, children and also adults. We recommend cumin syrup alone or diluted with tea between meals.

Use: Babies take 1 teaspoon (5 ml) of syrup once a day, children 1 teaspoon (5 ml) of syrup 2 times a day. Adults and children over 10 years of age consume 3 small spoons (15 ml) of syrup up to 3 times a day.

Ingredients: Sucrose, purified water, cumin fruit extract.

Glycerolum glycerin suppositories for children

Net Quantity: 10 suppositories

Description: Glycerolum glycerin suppositories for children contain glycerol, which binds water in the intestine and prevents its resorption. This increases the intestinal contents, which stimulates peristalsis and causes emptying. The laxative effect occurs quickly (within 15 to 45 minutes). Glycerolum glycerin suppositories for children are suitable for children and can be used in infants older than 3 months.

Use: Detailed use instructions can be found on the packaging.

Ingredients: 1 candle contains 1.3 g of glycerol soap base (1.1 g of glycerol (Glycerolum 85 per centum) in sodium stearate (Natrii stearas)) and purified water.

Nourishing cosmetics

Galex pays special attention to the development of cosmetic products.

Our offer includes products from the care line and cosmetics for special purpose.

Cosmetic line Thermalium

The gift from the depths of the Pannonian sea, now within your reach, so your skin will stay vital and properly nurtured.

Beneficial effects of the Thermomineral Water

Therapeutic uses: rheumatic diseases, degenerative diseases of joints, recovery after injuries, surgical operations and functional disability of musculoskeletal system, and skin diseases.

Beneficial effects on skin:

- it reduces sensitivity of the immunocompetent cells in skin: threshold of reacting becomes higher,
- improves intercellular exchange of substance with strengthening cell membranes,
- establishes balance in skin,
- increases efficiency of key cells of the immune system: auto-protection of the skin.

Other beneficial effects:

- invigorates and freshens up the body,
- improves and accelerates blood circulation of skin,
- gives the feeling of comfort and relaxation,
- encourages the renewal of the skin and improves its defensive mechanisms.

After careful and thorough research and analyses we managed to condense the water into the nurturing cosmetic collection that is now within your reach.

- Nutritional and nurturing oils and the remaining ingredients of the individual products were carefully selected in order to support and supplement the beneficial effects of the thermomineral water.
- The resulting products therefore provide protection of the skin against harmful environmental influences, soften and moisturize the skin, and prevent skin dehydration.
- Thermalium collection products contain minimal concentrations of fragrance.

In 2012, Galex was awarded a gold medal by Pomurska Chambers of Commerce for Innovation »Preparation of cosmetic products for skin care, containing thermomineral water and a natural antioxidant “.

Cosmetic line Thermalium consists of:

Cream for hands, Daily moisturizer, Night moisturizer, Moisturizing cream for body, Moisturizing body lotion.

It is complemented by Thermalium Premium products:

Daily ANTIAGE cream, Night ANTIAGE cream, Cream for the area around the eyes.

The advantage of Thermalium products, which contain 59 to 80% of thermo-mineral water, is that the thermo-mineral water is a completely natural ingredient that retains all its characteristics and beneficial effects on the skin during the manufacture and use of the product.

Premium ingredients

URSOLE ®: natural emulsifier extracted from rosemary (Rosmarinus officinalis), with high content of ursolic acid

REGU®- AGE PF: unique, high performing complex of specially purified natural rice and soy peptides with a biotechnologically produced superoxide dismutase

HIALURONIC ACID: vital natural substance, has large capacity to attract and hold vast amounts of moisture

- *products were not tested on animals.*

Thermalium day moisturizing cream

Net Quantity: 50 ml

Description: Thermalium Day Moisturizing cream is designed for daily care to maintain beautiful skin. The cream contains 62% of thermomineral water with nutritious minerals and natural ingredients that quickly restore the skin's natural moisture level and protect it from the harmful effects of the environment throughout the day. Protects the skin from drying out. Enriched with jojoba oil and vitamin E for soft skin.

Hypoallergenic scented formula, paraben free. Suitable for all skin types, including sensitive skin.

After use, the skin is fresh and youthful.

Thermalium night moisturizing cream

Net Quantity: 50 ml

Description: Thermalium Night Moisturizer is designed for intensive care to maintain beautiful skin. The cream contains 59% of thermomineral water with nutritious minerals and natural ingredients that quickly restore the skin's natural moisture level and nourish it. It protects the skin from drying out and thus slows down the aging process. Enriched with avocado and jojoba oil with lots of natural vitamins and unsaturated fatty acids.

Hypoallergenic scented formula, paraben free. Suitable for all skin types, including sensitive skin.

Tired skin will shine in new freshness in the morning.

Thermalium moisturizing body lotion

Net Quantity: 200 ml

Description: Thermalium Moisturizing Body Lotion is intended for daily care to maintain beautiful skin. The lotion contains 64% thermomineral water with nutritious minerals and natural ingredients that moisturize the skin, keeping it elastic, firm and youthful.

The lotion pleasantly cools the skin and is suitable for the care of dry skin after showering and soothing the skin after prolonged exposure to the sun. It restores moisture to the skin and gives it a pleasant velvety feeling. It contains jojoba oil and vitamin E, which soften the skin and protect it from external influences.

Hypoallergenic scented formula, paraben free.

Thermalium moisturizing body cream

Net Quantity: 200 ml

Description: Thermalium Moisturizing Body Cream is designed for daily care to maintain beautiful skin. The cream contains 60% of thermomineral water with nutritious minerals and natural ingredients that protect the skin from moisture loss and premature aging and protect its natural structure. It is especially suitable for sensitive, dry and problematic skin, and also softens and nourishes rough and cracked skin. The cream is enriched with almond and avocado oil, which contain natural vitamins and a high proportion of unsaturated fatty acids.

Hypoallergenic scented formula, paraben free.

It gives the skin softness, elasticity and a silky feeling.

Thermalium hand cream

Net Quantity: 50 ml

Description: Thermalium hand cream is intended for daily hand care to maintain beautiful skin. For a beautiful, gentle feeling on the skin. The cream contains 80% of thermomineral water with nutritious minerals and natural ingredients that quickly restore the skin's natural moisture level and protect it from drying out and the harmful effects of the environment.

Hypoallergenic scented formula, paraben free.

Enriched with vitamin E. The fast-absorbing hand cream restores and smoothes the skin of the hands

Thermalium shower gel

Net Quantity: 200 ml

Description: Thermalium Shower Gel is designed to gently cleanse the skin while showering. The silky shower gel with a wonderful citrus scent gently cleanses while maintaining the skin's natural moisture balance. In addition to thermo-mineral water from Moravske Toplice, it contains natural ingredients that nourish, moisturize and regenerate the skin. The gentle composition of this natural product contributes to the fact that it is suitable for all skin types, but especially for sensitive skin. It contains orange flower hydrolate, panthenol and moisturizing aloe vera, which together with plant foaming agents leave a wonderful feeling on the skin after showering and provide long-lasting hydration.

The product does not contain sulfates.

Thermalium premium day cream antiage

Net Quantity: 50 ml

Description: Thermalium Premium Day Cream ANTIAGE is intended for daily care, for maintaining beautiful skin and active protection against premature aging. The cream contains 62% of thermomineral water with nutritious minerals and natural ingredients that offer active care and broad antioxidant protection against the harmful effects of the environment. Hypoallergenic scented formula, paraben free. Suitable for all skin types, including sensitive skin.

After use, the skin is fresh and youthful.

Thermalium premium night cream antiage

Net Quantity: 50 ml

Description: Thermalium Premium Night Cream ANTIAGE is intended for intensive care to maintain beautiful skin and active protection against premature aging. The cream contains 60% of thermomineral water with nutritious minerals and natural ingredients that quickly restore the skin's natural moisture level and offer broad antioxidant protection against the harmful effects of the environment. Enriched with avocado and jojoba oil with lots of natural vitamins and unsaturated fatty acids. Contains ursolic acid from rosemary extract.

Hypoallergenic scented formula, paraben free. Suitable for all skin types, including sensitive skin.

Tired skin will shine in new freshness in the morning.

Thermalium premium eye area cream

Net Quantity: 15 ml

Description: Thermalium Premium Eye Cream is a light and fast-absorbing moisturizing cream with nourishing minerals and active ingredients that reduce wrinkles, nourish the eye area, reduce dark circles and puffiness around the eyes. It reduces skin dehydration, moisturizes and traps moisture inside the skin. It has a pronounced antioxidant effect, which protects the sensitive skin around the eyes from harmful radicals.

Active ingredients:

Hyaluronic acid: deeply moisturizes the skin, because due to its molecular composition it penetrates into the lower layers of the skin, absorbs up to several thousand times its weight of water, and thus smoothes wrinkles.

REGU AGE PF, Ursolic acid. In addition to the main active ingredients, it contains other nourishing components such as bisabolol, panthenol, allantoin, vitamin B3 and roman chamomile hydrolate.

Lip Ointment

Net Quantity: 6 g

Description: Lip balm protects the lips from external influences such as wind, cold and dry air in heated rooms. Soothes, restores and protects. The key ingredients are: high shea butter content (25%), lemon, olive oil, jojoba, vitamins E and A, beeswax.

Use: Apply to lips if necessary.

Ingredients (INCI): Butyrospermum Parkii (Shea) Butter, Olea Europaea (Olive) Oil, Simmondsia Chinensis (Jojoba) Oil, Prunus Amygdalus Dulcis (Almond) Oil, Cera Alba (Bees Wax), D-Alpha Tocopherol (Vitamin E), Lanolin, Citrus Lemon Oil, Bisabolol, Retinyl Palmitate (Vitamin A).

Vitamin cream

Net Quantity: 50 ml

Description: Vitamin cream with avocado oil, which is rich in natural vitamins (vitamins A, B1, B2, D and E, oleic and linoleic acid), is well absorbed into the deeper layers of the skin and gives it flexibility and softness. It protects, nourishes and slows down the aging process.

Use: The cream is intended for day and night care of dry and sensitive skin.

Ingredients (INCI): Aqua, Persea Gratissima Oil, Petrolatum, Oleyl Oleate, Lanolin, Cholesterol, Cetearyl Alcohol (and) Sodium Cetearyl Sulfate, Parfum, Potassium Sorbate, Sorbic Acid, Linalool, d-Limonene, Hexyl Cinnamal, Geraniol, Citronellol.

Cooling cream

Net Quantity: 45 g

Description: Use a cooling cream for skin care and protection. The ointment is best suitable for sensitive baby skin, as well as for the care of all skin types, including dry and sensitive skin. It contains oil and water, so the cream retains moisture once applied and prevents the skin from drying out. Avocado and almond oil with a high content of unsaturated fatty acids and natural vitamins penetrate the skin very well and thus nourish it.

Use: For all skin types, including dry, sensitive and baby skin.
Apply a thin layer of cooling cream on cleansed skin 2 to 3 times a day.

Ingredients (INCI): Aqua, Petrolatum, Prunus Amygdalus Dulcis Oil, Oleyl Oleate, Lanolin, Persea Gratissima Oil, Cholesterol, Cetearyl Alcohol (and) Sodium Cetearyl Sulfate, Perfume.
